Qualifications:

- **Level 3 BTEC Computing.**
- **Cisco Network Basics, introduction to cyber security.**
- **SoloLearn Python Developer Certificate.**
- **CompTIA A+ (In progress).**

Skills:

- **Programming skills:** Professional to intermediate proficiency in Python, JavaScript, VB.NET, and SQL.
- **System Monitoring & Analysis:** Basic understanding of monitoring, metrics and logs monitoring.
- **Troubleshooting:** Basic troubleshooting of hardware, software and network issues.
- **Operating Systems:** Proficient in using Command Line Interface (CLI) and working with Linux-based Distributions (E.g., Kali, Ubuntu)
- **Languages:** French(fluent), Arabic(native) and English(fluent).

Hobbies and interests:

I enjoy watching films, going on long walks, discovering new places, and reading classic books and philosophy. In my spare time, I run some **network simulations using Cisco packet tracer** to analyse the traffic and data flow in different network environments. I also familiarise myself with Debian based Linux systems and their network analysis tools.
